

56 Types of Turbulence you could run into when buying or selling a home:

Selling your home is like taking an airline flight across country. When you start on your trip you have no idea how the trip will go. Neither does the pilot! You could run into 56 different types of turbulence, or you could have a smooth flight and land on time.

Certainly the pilot will try to use his or her experience to navigate around the storms and go for the smoothest flight plan, but if they are honest, they can't promise a turbulent-free trip. Their job is simply to get you to your destination in the least time and with the least aggravation, while keeping you informed throughout the trip.

Attached is a somewhat humorous list of the 56 different types of turbulence you might run into. This list is not all encompassing, but it catches most of the common issues. While some of the items are "picky" to some, they are very real and fearful to others.

Please take a minute to review the list.

As your Real Estate Consultant (Realtor), I see myself as the pilot of your plane. My job is to assist you in getting your home sold for the most money, in the least amount of time, with the fewest aggravations. Or if you are buying a home, to find the best home money will buy.

I can't promise you no turbulence, but I can promise you that I'll utilize my experience and expertise to take you on the smoothest flight that I can. If we do hit turbulence, I won't bail out on you. I'll be your teammate throughout the flight until we get you safely to your destination.

Rest assured your advocacy is my number one goal, and that means you must be delighted with the service I provide and deliver beyond your expectations during the process.

As always, should you have any questions or concerns, please don't hesitate to call me.

The 56 Types of Turbulence:
